General

Re 2161, the last positive report of this vehicle was in 744-7-7 whence this vehicle passed from Bell, Newtonards (NI) back to ITG, Anston (SY). It is presumed that ITG undertook the conversion of this vehicle similar to other conversions that they undertook at the time. However 835-5-204 reports that the vehicle now carries an 'LCB' plate so this may not be the case. Until evidence to the contrary is available your sub-editor is settling on the above.

Re 2296 (A296 XAK) and 2297 (A297 XAK), News Sheet 3 records the following: A297 XAK Ds Ar was previously recorded with Oldmixon Youth Project, this was actually supplied and operated by the AYA. It has been out of use for a number of years. Both A296 XAK and A297 XAK have been previously reported at Naite Farm, Oldbury on Severn. This may have been the location where they were stored when first acquired by AYA.

General

Jones & Icton {J&C}, Newton Aycliffe. Although F150 PNC (ex SIL 9158, 720 HKH, F424 SPY) is regarded by the DVLA as scrapped 7/05 it was still extant on the premises 3/06 being used for spares and was later physically scrapped at an unknown date.

Weardale, Stanhope. Although G 16 WMS (ex G676 TCN) has been re-licenced it is not currently in use. It is stored at the Frosterley parking ground together with G640 EVV which is currently SORN. The remains of the depot building at Frosterley had been demolished by 16/10/10.
