Information

The P.S.V. Circle Library has available for loan P.S.V. Circle publications which are no longer on sale. Such publications include old news sheets, fleet histories, fleet listings and also some Ian Allan publications.

A deposit of £10 will be required from any member who wishes to borrow publication(s). This is refundable when publications are returned in good condition, subject to the rules below. The deposit may be retained by the Circle to cover anticipated future loans.

- 2) The total number of publications which may be borrowed at any one time is four.
- 3) Members must quote their Circle membership number in all correspondence.

- 7) Upon return of publications the member must reimburse the Librarian in postage stamps to the value of the outgoing postage.

8) Members shall not mark Library stock in any way and shall be held responsible for returning publications to the Issuing Librarian in the same condition as received by them. If recourse to repair is necessary, the cost of the same may be deducted from the deposit money.

9) A fine of 50p per day per publication shall be levied in the event of late return of publications. Loan extensions may be agreed by the Librarian. Fines may be waived at the discretion of the Librarian.

E and F Lists

These were produced from 1968 to 1993 and are fleetlists of operators at the given date.

E lists are Major operators and F lists are small or independent operators.

Early lists were produced in foolscap size (13in by 8in) and later lists reduced in size to folded A4.

It appears that the editors of the day were in competition to publish the longest possible title.

I have made some abbreviations to the titles which I hope still convey the content.

When borrowing please always provide envelopes for foolscap.

This range of lists was replaced by G lists - the current format.

Supplements

These are the Circle's method of publishing vehicle data subsequent to the issue of a fleet history.

They contain fleet lists at a given date (not necessarily that of publishing) and also, but not in all cases selective fleet histories. They are all produced in on foolscap paper (13in by 8in).

The data in these lists will have been reproduced and updated in subsequent Fleet Histories
