General

Unofficial allocation code NM is used for Manvers Street, Nottingham NG2 4PQ from 10/10.

Darts 2001-3 ran initially with 'free' lettering hiding a 99p logo prior to the commencement of the Nottingham-Cotgrave service registration from 11/10/10 running in competition with the 'red2' service operated by Premiere, Nottingham (NG) which itself competes with the Trent (DE) 'cotgrave connection' and 22 routes. From registration the intended fare was changed from 99p to 50p and 'bargain bus' logos were instead applied. The 'out of sequence' fleetnumbers now applied to these vehicles appear similar to the four-digit series used by Premiere.

From 14/11/10, Premiere have also registered a 'red4' route from Long Eaton and Sandiacre to Nottingham, largely covering the Trent (DE) 'rainbow 4' route. From 29/11/10, Midland General has registered a service over the section of route from Long Eaton (Briar Gate) to Nottingham. Details of the vehicles to be used on this service are awaited.

General

A Wrightbus StreetLite was demonstrated at Langley Mill briefly in 9/10, but was not used in service.

The spira livery carried by Solos 431/43 is for a rebranded route 241 from 25/10/10, albeit the new service does not serve the section of the 241 route from Sutton-in-Ashfield to Mansfield but is extended at the other end of the route from Clay Cross to Chesterfield. Excel 264 carries the same coloured livery for Staffordshire tendered route 409 (Uttoxeter - Ashbourne).

Solo EV electric demonstrator YJ 09 EZR was used at Nottingham on the Centrelink service.

Thanks to Alan Spencer for his recent reports and as ever to the members of the wellglade egroup.

General

All the above vehicles recorded as NOT GONE except 1358 were given as sold at the auction at Lea Hall 8/10 from a list given to your sub-editor and published in good faith. It now appears from a list obtained from the company that the above vehicles either did not reach their reserve or the sales were not all proceeded all with and remain in stock stored at the former Lea Hall garage. 1358 was thought to have gone to PVS but remains in stock accident damaged.

4085 (V 85 MOA) is withdrawn with fire damage after an arson attack on the top deck. It has, along with long time withdrawn 4030 (V430 MOA), also fire damaged after an engine fire, been moved to Carlyle, West Bromwich (Q) for one good bus to be made of the two.

General

Airparks, Marston Green. YJ 10 MGO has also been reported with Airport Parking, Sharston (GM). It certainly operates at Manchester Airport, but which operator has this vehicle?

Armstrong {Euroliners}, Rednal. A new 60-registration Mercedes midicoach is in stock – can anyone supply further details?

Grosvenor, Yardley Wood. Fleet numbers: 401 (T401 AGP); 404 (T404 AGP); 410 (T410 AGP); 417 (T417 AGP). Vehicles were renumbered 9/10: 003 (N403 MPN) to 403; 004 (N509 KCD) to 509; 005 (N611 LGC) to 611; 007 (N515 KCD) to 515.

Haywood & Prosser {A Line}, Coventry. M431 RDC was not operated.

Mehrban, Ward End. KR 02 FYL was not operated.

O'Connor {Beer Bus Company}, Oldbury. CUB 70Y and EWY 80Y were not operated.

Plaza, Erdington. FY 02 OXJ has yet to enter service.

Star, Erdington. A Ford Transit Tourneo with registration FG 03 UWM has been reported, but this registration appears to be incorrect; can anyone supply the correct registration?

WMSNT {Ring & Ride}, Aston. Fleet numbers: 1014 (DX 10 GXV); 1029 (BX 10 OPZ); 1040 (DX 10 OCJ). DX 10 LHW is also reliably reported as carrying fleet number 1014 so it appears that, at least for the time being, 2 vehicles are running with the same fleet number.

Thanks this month to David Clegg, Tony Hunter, John Scotford and the *Britishbus* and *WMBuses* egroups.
